## Alles zum Standort

Located in the centre of Manacor but in very quiet streets. Manacor is currently the second city of Mallorca with great activity throughout the year, very well connected, 12 kilometres from Porto Cristo, 13 from the Caves of Drach and 1 kilometre from the Rafa Nadal Academy. The city has the Manacor-Artá Greenway, an old railway route that connected the eastern end of Mallorca through the interior along a flat route with a traditional landscape. It passes through the old stations of Sant Llorenç des Cardassar, Son Carrío and Son Servera. In the middle part it passes very close to the coast, offering magnificent views of the sea, and in Son Servera it connects with the bicycle lane that leads to the beaches of Levante. This Greenway has been implemented by the Balearic Government through the Department of Agriculture, Environment and Territory, with the initiative of a group of citizens from the municipality of Sant Llorenç.
