A first impression

The apartment offered here is located on the ground floor and garden level of a well-maintained three-family house, completed in 1994. This property enjoys an excellent location on the outskirts of the city and, with its generous layout, offers ideal conditions for various uses. Previously used as a commercial unit/office, the rooms are already quite spacious, but even more rooms could be created with minor modifications such as drywall partitions. The four rooms are spread over approximately 160 square meters across two levels, allowing for flexible layout options. On the ground floor, you enter the property through a welcoming entrance hall that leads into the living room. This level also includes one of the two bathrooms with modern fixtures, as well as one of the two fully equipped kitchenettes, which can be closed off with a folding door. A balcony is also available. A spiral staircase leads to the garden level, which houses the remaining rooms. There you will find the second bathroom and a separate WC. The aforementioned second kitchenette is also located on this level. The layout of the property is therefore ideally suited for combining living and working under one roof, or even for multi-generational living. Access to the terrace and large garden offers a pleasant opportunity for relaxation. In addition to the living space, the property features functional basement rooms, perfect for storage. A highlight is the existing server rack, which meets the technical requirements of modern work. Three parking spaces are available on the property, ensuring convenient parking right at the house.
