A first impression

This spacious 4-room apartment is located on the top floor of a multi-family building constructed in 1975 in a quiet area of Göppingen. With approximately 98.59 m² of living space, the property offers ample room for couples or families. The building, and especially the stairwell and elevator, were modernized in 2021, so the property is in good condition and only minor renovations (walls and floors) are needed in the apartment itself. The elevator provides convenient access to the top floor. Upon entering the apartment, you'll find an entrance area with a practical storage room and space for a wardrobe. The adjacent living area is flooded with natural light and offers plenty of space for a comfortable seating area and a dining area. A highlight of the apartment is the large balcony, which offers a sensational view of the Swabian Alps. It is accessible from the living room and one of the two children's bedrooms. Adjacent to the living area are three bedrooms of varying sizes, which can be used flexibly as bedrooms, children's rooms, or offices. The bathroom is equipped with a bathtub, sink, and washing machine connection. The toilet is located in a separate room. The kitchen is unfurnished, allowing you to design it according to your own preferences. Two storage rooms within the apartment offer additional storage space and enhance the apartment's practicality. Another advantage of this property is the large basement storage room, providing further storage options. A parking space in the underground garage is also included, ensuring convenient parking. The apartment's fixtures and fittings meet standard requirements, allowing future residents to personalize the space to their liking.
