A first impression

The TV House: Individuality and spectacular views! An exciting property with plenty of space for the whole family. This impressive property in Essen Kupferdreh was built in 1956 in a cubic style and will captivate you with its unique character and phenomenal views over the Ruhr Valley. Known locally as the "TV House," this property is situated in a quiet residential area on a gentle slope, surrounded by greenery and offering plenty of privacy. Spread over two floors with a total living area of approximately 188 m², the unusual architectural style and resulting unique layout offer numerous possibilities for creating a truly individual home. A beautifully landscaped driveway from the main road leads to the front of the house, where a large double garage is located. The entrance, with its wide glass front, is very welcoming and allows plenty of light into the spacious hallway, which can be used in a variety of ways as a central room. Create your dining area here or easily extend the space into a living room. To the left are a guest WC, cloakroom, and kitchen with an adjoining pantry. Straight ahead leads you to the highlight of the house: the "floating" living room, featuring a floor-to-ceiling window front, which projects far forward. From here, you can enjoy unobstructed panoramic views and create your own personal haven in approximately 35 square meters of living space. A suggested layout is included in this brochure. You can also enjoy the sunshine on this level, as the living room opens onto a small balcony with an awning and a staircase leading down to the garden, which can also be accessed via other entrances. The right wing of the approximately 124-square-meter upper floor also includes a bedroom, a bathroom, and a study. The basement offers approximately 64 square meters of living space and features four rooms, including one with access to the garden and patio, a shower room, two storage rooms, and a utility room with laundry facilities. The rooms can be used flexibly as offices, bedrooms, guest rooms, or hobby rooms. A solar system on the roof provides hot water, and an alarm system ensures your reliable security. The property is in good condition

but requires extensive modernization (e.g., bathrooms, heating, flooring), offering you the opportunity to realize your individual wishes. Design this exceptional house according to your vision and make it your perfect home. The architectural style, location, views, and the beautiful garden with its unique trees and plants, a covered terrace, and a lawn with plenty of space to relax and play will delight your family. Want more space? The living area could be expanded by adding another floor and a roof terrace with spectacular views. If we have piqued your interest, we would be happy to provide you with further information and arrange a viewing. We look forward to hearing from you!
