## **A first impression**

The plot of land offered here, measuring approximately 2,609 m<sup>2</sup>, is subject to a valid development plan. The designated area is as follows and offers extensive usage possibilities: commercial/with a ground coverage ratio (GRZ) of 0.8, a building coverage ratio (BMZ) of 8.0, and maximum building heights of 12 m or 18 m. A preliminary building permit for a hotel was issued for this plot in May 2018; we are showing some visualizations that illustrate the potential use of the land. According to these visualizations, a minimum gross floor area (GFA) of approximately 3,140 m<sup>2</sup> across six floors should be achievable above ground. Unfortunately, this preliminary building permit has not been extended, but this can be arranged upon your request. The site is currently leased, but can be handed over vacant three months after notarization (the plot is listed in the contaminated sites register). The area would also be suitable for self-storage, a care facility or similar commercial space, although a boarding house was excluded in the preliminary building permit.
