A first impression

This well-maintained property presents itself as an inviting detached house with a self-contained apartment that has its own separate entrance. Built in 1996, the house sits on a plot of approximately 580 m². With a living area of approximately 196.2 m², it offers ample space for families seeking a comfortable and functional home. The house comprises a total of 7 rooms, including 4 spacious bedrooms that allow for flexible room layouts. Three modern bathrooms provide added convenience. The sophisticated architecture is underscored by solid construction (Liapor-Super K stone exterior) and features high-end finishes that meet the highest standards of quality and comfort. A romantic wood-burning stove is centrally located in the living and dining room, providing warmth and a cozy atmosphere. The main residence boasts a large terrace with beautiful views of the garden, ideal for relaxing outdoors. The interior is complemented by a high-quality fitted kitchen and a separate pantry. The combination of central heating and solar thermal energy efficiently supplies the house with hot water, contributing to low energy costs. An additional 7,000-liter rainwater cistern demonstrates the property's environmentally conscious design. Two internal garages offer secure parking and additional storage space. The separate apartment makes the house particularly attractive for multi-generational living or long-term accommodation for a caregiver. The house has been continuously maintained and regularly modernized to meet current standards. Underfloor and rafter insulation in the attic ensure a comfortable indoor climate. Underfloor heating is combined with traditional radiators. Overall, the property is characterized by high-quality fixtures and a well-designed layout. In conclusion, this house is an excellent choice for families who value both spaciousness and quality amenities. This detached house with a separate apartment is also well-suited for multi-generational living. Please clarify financing options before scheduling a viewing.
