Unique Patio Bungalow of 174 m² overlooking the water at Gijsbrecht van Amstelpark

This exceptional patio home, designed by renowned architects Claus en Kaan and built in 1998, combines light, space, and tranquility in one of the most desirable locations of Amsterdam. With a generous living space of 174 m², three bedrooms, and expansive outdoor areas seamlessly connected to the interior, this home offers comfort and style in equal measure.

In 2021, both the kitchen and bathroom were completely renovated, and a range of custom-built wardrobes were added, ensuring optimal use of space. The property also comes with private on-site parking – a true rarity in this area.

Large windows throughout flood the home with natural light, while the patio and terraces extend the living space outdoors, creating a wonderful sense of openness and freedom.
