A first impression

Four plots of land, equipped with photovoltaic systems and leased to tenants, are for sale. The properties are located in Dietlas, Oschatz, Friedersdorf, and Muldenstein in Saxony-Anhalt, Saxony, and Thuringia. The lease agreements were signed in 2011 with options extending to 2042. A key feature is the adjustment of the lease payments to €106,490 annually starting in 2033, with a further increase to €111,814 annually in 2038. This is a truly sustainable investment, generating very attractive returns from both an economic and ecological perspective due to rising energy demand.
