A modern, partially furnished home featuring spacious and bright rooms, contemporary finishes, and building systems designed to ensure a high level of living comfort.

The living area is laid out as a pleasant open-concept space, featuring the living room, dining area, and a modern kitchen fully equipped with all appliances. The large windows provide excellent natural light and offer direct access to the private garden, which features a paved area perfect for outdoor dining and relaxation.

A full bathroom with laundry space completes the ground floor.

The sleeping area on the upper floor includes three spacious double bedrooms and two bathrooms with windows, both equipped with showers. A private garage and an outdoor parking space complete the property.

The home was built with a focus on energy efficiency and quality of daily life. Underfloor heating and cooling ensure a consistent temperature year-round, while the 6 kW solar panel system helps significantly reduce energy consumption. The home is fully electric and does not use gas.

Managing the systems is made easy by the home automation system, while the electric roller shutters, video intercom, and pre-wiring for an alarm system provide additional convenience and security. The A4+ energy efficiency rating confirms the high standard of construction and low operating costs.

A modern, efficient, and move-in-ready solution, ideal for a family seeking generous spaces, independence, technological comfort, and low energy consumption.
