Exclusive Semi-Detached Villas with Private Garden and Communal Pool in Artà, Mallorca

We are pleased to present a select development of semi-detached homes that embody the authentic Mallorcan essence in Artà, one of the most charming and historic locations in the northeast of the island. A place where Mediterranean tradition and contemporary lifestyle blend in perfect harmony.

The residential complex, inspired by traditional Mallorcan architecture and reinterpreted with modern lines, has been designed according to the highest construction quality standards. It stands out for its excellent thermal and acoustic insulation, ensuring energy efficiency, comfort, and privacy.

The homes are distributed over two comfortable floors and feature spacious terraces and a private garden, as well as access to a beautifully maintained communal area with swimming pool and landscaped gardens — ideal for enjoying the Mediterranean climate and outdoor living.

On the ground floor, a bright open-plan living space combines the living and dining area with a modern, fully fitted and equipped open kitchen. Direct access to the south-facing terrace and private garden allows natural light to flood the home throughout the day, creating a warm and welcoming atmosphere. This level is completed by an elegant guest toilet.

The upper floor offers three double bedrooms and two fully equipped bathrooms, one of them en suite. The master bedroom features a dressing area and its own private terrace — a perfect retreat for relaxation.

The kitchen comes fully equipped with high-end appliances from Siemens or similar brand, including oven, induction hob, and extractor hood.

The bathrooms combine aesthetics and functionality with wall-mounted wooden vanity units, spacious walk-in showers at floor level, and built-in fittings from the brand Tres, providing a modern and refined design.

Large-format porcelain tiles from Saloni have been selected throughout the property, with a non-slip version used on the terraces to ensure safety and visual continuity.

For maximum comfort all year round, the property is equipped with underfloor heating in all rooms.

Each home also includes a private garage parking space with independent and direct access.

Estimated completion: September 2026.
