A first impression

The proposed three-room apartment is located on the second floor of an apartment building, on the border between Merano and Lagundo, and has a living area of about 91 m² commercial as well as a large terrace of about 16 m², which offers multiple possibilities for outdoor use. The unit consists of a living-dining area, an abiatable kitchen, two bedrooms and a windowed bathroom; the distribution of space is functional and well usable. The finishes are largely from the era of construction, while the triple-glazed windows and the front door have just been replaced, so the apartment is in good condition overall and offers potential for customization. Particularly relevant is the large balcony, accessible directly from the living room, which creates additional outdoor space in everyday life. The property is suitable both as a first home for couples or small families and as a second home with good connection to the city, with stores, public transportation and the center of Merano reachable in a short time. Separately of can purchase a large garage located in the vicinity of the property.
