Property ID: HU26439716 - 1025 Budapest

A first impression

panoramic 898 sqm luxury villa in the iconic dome of the tower, the heart of the buda elegance

In one of the most exclusive, greenest and safest parts of the 2nd district of Budapest, in the upper prestigious section of Törökvész út, we offer for sale this luxury family residence of 828 sqm on four floors and a 70 sqm garden. The atmosphere of the area is both elegant and close to nature: well-kept villas, quiet streets, birdsong and a breathtaking panorama over the city define everyday life. Here, the tranquillity of the Buda lifestyle meets the quick accessibility of the city centre - a combination that very few properties can truly match.

The fully intimate, gated plot of 2004 sqm is a true rarity. The document also emphasizes: 'unique plot size, intimate garden with swimming pool, bioclimatic pergola, garden barbecue'. This garden is not just an outdoor space, but a private oasis where nature and luxury meet in perfect harmony.

Constructed in 2007-2008, the brick-concrete structure is fully insulated and every detail of the building is designed for quality and long-term value. The 3 m ceilings, 2.4 m doors, large glass surfaces and spacious rooms create a generous, elegant atmosphere from the very first moment.

The interior design concept is a harmonious blend of modern and classical styles, with quality wood flooring, granite and limestone tiling, combined with unique joinery, built-in wardrobes and wall panels.

In total the house has:

3 living + dining areas

7 bedrooms

5 bathrooms

3 separate toilets

2 laundry rooms

several closets, storage, pantry

separate office

separate garden apartment of approx. 70 m² - functions as a full-fledged living area

This detached garden apartment is ideal for a guest house, grandparents, adult children or even for renting.

The property offers exceptional potential due to its size, structural design and the three existing dwellings: it can be converted into a 6 apartment apartment block if required, which is a very rare and valuable asset in the area.

This flexibility is an outstanding advantage for investors, multi-generational families and entrepreneurs.

The technical content of the house represents the top of the luxury category:

heat pump

gas condensing boiler

underfloor heating

ceiling cooling

smart home system with remote control

3×63 amps

two solar systems (Fronius 8 kW + Solaredge 10 kW)

alarm, code access, smoke detectors

There is a 5-person lift between the four levels, and on the garage level there are 4 heated garages and a covered garden shed with automatic gates.

A special highlight is the low maintenance cost for its size - a real asset in this category.

The two terraces of 28 m² each, facing south, offer a stunning panoramic view of Mount János in all seasons. The covered outdoor pool, the seating area, the bioclimatic pergola and the barbecue area are the perfect place for family and friends gatherings.

The house is bathed in light all day long - sunny, south-facing and bright.

The infrastructure of the area is excellent: schools, kindergartens, shopping centres, shops, sports facilities and public transport are all within easy reach. The street frontage of the house is discreet and the inner garden is completely quiet, green and panoramic.

We support the purchase with a full range of reliable legal advice and, if required, independent credit and financing advice. We provide a secure, transparent and professional service throughout the entire process.
