A first impression

This spacious, fully-basemented country house, currently in shell construction, offers an impressive living and usable area of approximately 521 m² on a roughly 906 m² plot and boasts a well-thought-out floor plan in a rural yet conveniently located setting. The detached house, complete with a generous double garage, combines a high level of living comfort with diverse usage possibilities – ideal for large families, freelancers requiring space, or those needing hobby rooms. Upon entering the house, you are greeted by a welcoming entrance hall that makes a striking impression. From the hallway, you access the various living areas, distributed across a total of 11 rooms. The heart of the house is the spacious living and dining room, which, with its brightness and open design featuring a fireplace, will become the central hub of family life. The adjacent, open-plan kitchen offers ample space for individual cooking concepts and convivial gatherings. Here, everything is in place for comfortable working and dining. In addition, there are two utility rooms, ideal for storing and organizing supplies and household items. The upper floor houses the house's three bedrooms. Thanks to the intelligent layout, all residents enjoy a high degree of privacy. The rooms are well-proportioned and can be flexibly used as children's rooms, guest rooms, or offices, depending on requirements. The highlight: all three rooms have their own balcony! The full bathroom offers comfort for the whole family; there is also a separate shower room on the ground floor and another toilet in the basement. A particular strength of this property is the number of flexibly usable rooms in the basement, accessible via an external staircase. These offer space for individual hobbies, a home office, or a fitness area, making the house suitable for a wide variety of lifestyles. A special feature: the basement can be used for commercial purposes! The outdoor areas, such as terraces, flowerbeds, and pathways, still need to be landscaped. Thanks to the approximately 2,122 m² directly adjacent biotope, the property appears significantly larger. Several outdoor parking spaces are possible on the property, and the double garage with adjoining storage room offers ample parking for cars, motorcycles, and bicycles. Due to the current shell construction, the interior finishes can still be customized. Options include underfloor heating, triple-glazed windows with roller shutters, a central vacuum system, a future-proof heating system, modern electrical wiring, a ventilation system, an alarm system, as well as an elevator and barrier-free access. Partial use of the ground floor for senior-friendly living is also conceivable. The house's location combines peaceful living conditions with excellent access to local amenities. Shopping facilities, schools, and medical care are easily accessible, making the property an attractive place to live for a wide range of people. We would be delighted to present this exceptional country house to you in detail during a personal viewing. Let yourself be convinced by the many possibilities and the inviting atmosphere.
