A first impression

This well-designed and spacious 4-room apartment is located on the top floor of a well-maintained, four-unit building. The apartments are distributed between the main house and an extension. The building was constructed in 1888 using solid construction methods and was last extensively renovated and modernized in 1987. The apartment occupies the entire top floor as well as the partially converted attic. It features three well-proportioned bedrooms and a bright living area with a large window front. One of the bedrooms has a space-saving staircase, creating additional living space in the attic – ideal for a teenager! From the kitchen with a dining area, you can access the approximately 9 m² roof terrace overlooking the property and the green spaces beyond. The bathroom, with natural light, includes a shower, a bathtub, a double vanity, a toilet, and a towel warmer. The apartment also has a small storage room and a very large storage room in the attic. All windows are double-glazed and fitted with custom-made pleated blinds. The apartment includes a storage room of approximately 10 m² (approximately 10 sq m) and a carport parking space directly behind the house. We would be happy to show you this beautiful apartment in person and look forward to hearing from you!
