A first impression

Central area we offer an exclusive apartment for sale, bright and panoramic, by virtue of a balcony that makes it free on three sides.

The property, the subject of a complete renovation completed in 2024, combines the convenience of a new home with the solidity of an established new-generation construction.

The apartment has been intelligently and practically designed, the spaces are designed for maximum practicality and livability, equipped with a bright open space with open kitchen and a modern bio-fireplace in the living room that provides comfort and relaxation in the winter months, from the hallway you enter the sleeping area where we find two bathrooms that allow maximum practicality for the family and two large balconied bedrooms, for those who need it is possible to use a room as a private study.

Concluding the property are two important covered parking spaces, considering the increasing difficulty of parking in urban centers and a spacious cellar.
