All about the location

Puigpunyent, an exclusive retreat at the foot of the Serra de Tramuntana, has around 2,000 inhabitants and is one of the most charming villages in the west of Mallorca. Nestled in a dreamlike landscape of green valleys, olive groves and wooded hills, the village combines Mediterranean originality with an elegant living atmosphere. Its history dates back to Moorish times, which is still reflected today in the historic buildings and traditional architecture. At the same time, Puigpunyent is known for its upscale ambience, which harmoniously combines Mallorcan country houses, exclusive fincas and an international clientele.

The location is unique, as Palma with its historic old town, exclusive boutiques and marina is only around 15 kilometers away and the international airport can be reached in around 25 minutes by car. Beaches on the southwest coast, including Portals Nous and Illetas, are within easy reach, as are renowned golf courses, which provide a sporting and social center for discerning residents.

The surrounding area offers a special variety of sports and leisure activities. The Serra de Tramuntana, a UNESCO World Heritage Site, offers hikers and cyclists one of the most beautiful natural backdrops on the island. Horse riding, tennis and luxurious spa facilities in nearby boutique hotels add to the possibilities. At the same time, the sea is never far away, so water sports and sailing are just as easily accessible as the region's scenic golf courses.

Puigpunyent is also ideal for families as it offers a quiet, safe and natural environment. International schools in the Palma area, including renowned institutions with a bilingual or international curriculum, are within easy reach and provide children with a first-class education in an international environment.

Puigpunyent thus combines the tranquillity of an exclusive retreat with proximity to the cultural, culinary and social highlights of the island and presents itself as a first-class choice for families and discerning individuals alike
