## All about the location

The Adelfas urbanization is located within the Sa Vinyola residential complex above Sa Ràpita in the south of Mallorca and belongs to the municipality of Campos. The area has only a few hundred inhabitants and is characterized by a quiet, private atmosphere with predominantly modern detached houses and well-kept residences. Sa Vinyola has been developed in recent decades as a high-quality residential urbanization in the immediate vicinity of the coast, with particular emphasis placed on spacious plots, low building density and harmonious integration into the natural surroundings.

The location above Sa Ràpita combines rural expanse with proximity to some of the most beautiful beaches on the island, in particular the natural beach of Es Trenc with its Caribbean-like, turquoise waters. At the same time, the surrounding area offers open views across the fields to the sea and conveys a feeling of tranquillity and retreat away from tourist centers. Palma is around 40 kilometers away and Son Sant Joan airport is around 30 to 35 kilometers away, making it easy to reach for both permanent and vacation homes. International schools are mainly located in the Palma area and can be reached in around 35 to 45 minutes by car.

Sports and leisure opportunities are mainly due to the natural surroundings and the coastal location. Sailing and water sports play a central role in the nearby marina of Sa Ràpita, as well as cycling and long walks through the flat landscape of the Migjorn. Golf courses such as Son Antem are within reasonable driving distance. The Adelfas urbanization in Sa Vinyola thus stands for modern, quiet living in the south of Mallorca, in close proximity to the beach, nature and the sea, combined with good connections to Palma
