A first impression

The typical architecture of the Brescian Valleys, combined with modern comfort and a strong aesthetic taste, makes this property among the most sought-after and elegant in the area.

The house stands in a strategic location where total privacy, direct contact with nature and a glimpse of a lake view come together in perfect harmony, creating a rare and precious balance.

Built about twelve years ago from scratch, it was designed to integrate with the territory, maintaining the authenticity of the exterior while offering all the comforts of new construction; high performance insulation, home automation, advanced systems for the management of heat and cold, water purifier for the local source, solar panels with storage batteries, heated pool and sauna. For those who wish to avoid traffic and move with maximum freedom, there is also a helicopter landing pad.

The property is spread over three levels, designed to ensure privacy even when you want to share the space with guests. On the ground floor one is greeted by a two-level living room with an eat-in kitchen and an aesthetic fireplace; the veranda overlooks the luxurious infinity pool on one side and the barbecue area on the other, complete also with a pizza oven.

Climbing the internal staircase leads to the master room with walk-in closet and private bathroom, an intimate and private space. In the basement, completely open to the lakefront, we find two double bedrooms, two bathrooms, the sauna, a kitchen dedicated to guests, the laundry and all the technical rooms serving the chalet.

Great attention has also been paid to the study of lighting, which enhances both the interiors and exteriors, making the property particularly impressive in the evening hours.

The garden has been divided into diversified crops, from olive trees typical of the area to fruit trees, up to a grafted plantation capable of producing up to 60 kg of

black truffles per year. The entire property is completely fenced and electrified.
A unique solution for those seeking elegance, privacy and quality construction in
one of the most fascinating settings in the area.

About 12,000m² is cultivated and is an oasis of peace. Sixty olive trees produce about 30 liters of excellent oil per year. A large number of fruit trees and bushes ensure fresh fruit of special quality. Up to 60 kg of prized Perigord black truffles (Melanosporum) are harvested annually on the property! The cultivated truffle plantation also has an automatic irrigation system for the best yields. Numerous Michelin-starred restaurateurs purchase the excellent truffles of Perigord.
