## A first impression

This modernized apartment in an older building, located on the first floor of a multi-family residence, offers an ideal living environment for your family with a living area of approximately 102 m<sup>2</sup>, three rooms, and a fourth room that can be used for a variety of purposes. Particularly appealing is the successful blend of the characteristic stylistic elements of a building dating from 1920 and the property's current, well-maintained condition. The last renovation took place in 2024, so numerous original details are harmoniously combined with contemporary amenities.

Three well-proportioned rooms offer ample space for personal customization. One room features a small balcony that provides a pleasant outdoor retreat. An additional fourth room is available for flexible use. It is equipped with a practical built-in closet and allows for further design flexibility.

The living and dining area conveys a spacious feel, which is further emphasized by the impressive ceiling height of approximately 3.30 meters. The elaborate stucco elements in the living room and children's room—some of which were added in 2022—serve as a stylish architectural highlight. The carefully applied interior wall plaster contributes to a pleasant indoor climate.

The built-in kitchen, installed in 2020, features modern appliances and offers ample storage space as well as ideal conditions for culinary creativity. The bathroom was modernized in 2021 and equipped with a bathtub; it also features a special light well leading to the utility room. Thoughtful details, such as a washing machine hookup in the dedicated utility room, provide added convenience in everyday life.

The high-quality double doors between the living room and bedroom, as well as the wooden doors with elegant brass hardware, lend the apartment a special ambiance. The door to the living room also features a glass panel, which provides additional pleasant natural light. The double-glazed balcony door and wooden windows—some with brass hardware—highlight the apartment's prestigious character.

In terms of flooring, the tasteful mix of hardwood parquet (partially updated in 2021) and plank flooring in the children's room is a notable feature and underscores the quality of the rooms. Modern tubular radiators of the Zehnder Charleston model (2024) reliably provide cozy warmth and a stylish look.

Heating is provided by a gas central heating system, which also supplies hot water. You also

have access to a basement storage unit and bicycle parking in the courtyard.  
The monthly maintenance fee is set at 428.00 EUR (including 85.45 EUR for the maintenance reserve fund).

This apartment is particularly well-suited for couples and families looking for a well-maintained home in an urban setting. Here, you'll enjoy the benefits of a modern apartment in a historic building with a well-thought-out floor plan.

Feel free to schedule a viewing and see for yourself the potential this property has to offer.  
We look forward to hearing from you!
