A first impression

For sale is a well-maintained detached house, built in 1977, situated on a spacious plot of approximately 1487 m². With a total living area of around 178 m², this house offers ample space for a family. It features a total of 5 rooms, including 4 bedrooms and two fully equipped bathrooms. Upon entering the house, you find yourself in the hallway, from which the staircase to the upper floor is located to the left. To the right is the guest WC with shower, and directly opposite the front door is the kitchen. A little further to the right is the large dining and living area with an adjoining conservatory, which provides a wonderful extension of the living space in all seasons. Finally, on this level there is another room, currently used as a bedroom, which could also serve as an office or guest room. The solid staircase leads comfortably to the upper floor, where there are a total of 3 bedrooms, ideally a large master bedroom and 2 further children's bedrooms. A bathroom, renovated in 2003, completes the living space. Previously, the larger room on this level was used as a living room, making the house suitable for two-family use, for example, by a family with teenagers or grandparents. The ground floor entrance allows for separation, so each party would have their own private space. In the basement, you can access three rooms plus the boiler room via the hallway. Various uses are possible here – the basement itself is in good, dry condition, so theoretically, a large home office (also due to the existing fiber optic connection in the house) or a spacious guest area could be established. The house is heated by an efficient Vaillant heat pump from 2016, ensuring a comfortable living environment. The room layout is optimally designed to guarantee both comfort and practicality. The upper floor was modernized in 2003, including a bathroom renovation that same year. Extensive investments and modernizations have been carried out since 1998 – from cleaning and coating the roof, insulating the roof walls, renovating the kitchen and bathroom, to partially updating the electrical system. Much has been done, yet the house still offers the opportunity to add your own personal touch and settle down with your family for many happy years in a peaceful and supportive neighborhood. The property also features a new solid wood front door and electric exterior roller shutters. A drainage system installed around the house in 1998 reliably protects the building from moisture. Outside, you'll find fruit trees such as apple, cherry, and plum, which pleasantly enhance the landscape. The property borders a field, creating an open and tranquil environment with pleasant views. Three garages are available for vehicles: two for cars and one for additional storage. Overall, this property is in excellent condition and offers a comfortable living atmosphere thanks to its high-quality features and the modernizations carried out. Feel free to arrange a viewing appointment to see this attractive offer for yourself.
